It's the Most Hazardous Time of the Year

Be aware of changing road surfaces. Dirt or gravel on roads increases stopping distances. Watch for potholes and puddles.

Drop your speed to match road conditions.

Maintain a a safe following distance. It takes far longer to stop on a slippery road.

See and be seen. Use your head-lights and tail lights to make sure you are visible to other drivers.

Watch for wildlife on the road. Proceed with caution.

Proceed with caution around sharp bends in the road. Sight distance is often reduced, hiding hazards ahead.

Be alert. Low visibility due to snow, rain, fog, or light conditions can make it hard to see what's ahead.

Use caution when passing maintenance vehicles. They throw up snow and spray, making it difficult to see.

Adjust driving to changing weather. Take it slow when roads are slippery.

Road Safety At Work

Slow Down. Be Prepared For What's Ahead.

For winter driving safety tools and tips visit **RoadSafetyAtWork.ca/Winter**. Check **DriveBC.ca** for current road conditions.

BC highway signs like this mean that winter driving requirements are in effect. Know the signs and the law. Help keep your winter ride safe.
